PERSONAL PROJECTS

Doctor App (08/2024 - 10/2024)
- An Application which has two screen user and admin
- where admin can create community and manage user
- and user can join community and can upload post to the community which is followed by user and user can do one to one chat
- I work solo to this application and made frontend in flutter and backend in firebase

Payment Recovery (11/2024 - 11/2024)
- This is an Admin Panel Application where admin checks how much loan a person has, their due date and notifies them accordingly
- I made the backend of this application ,login,otp verification,jwt authentication,change password ,forgot password apis

Leoron World (09/2024 - Present)
- This is multipurpose application like e-commerce,match winning prediction and batting
- I made the UI of this app in flutter and integrate apis
